NOTE: You are purchasing a standalone product; MasteringChemistry does not come packaged with this content. If you would like to purchase both the physical text and **MasteringChemistry** search for ISBN-10: **0321839765**/ISBN-13: **9780321839763**. That package includes ISBN-10: **0133871975** /ISBN-13: **9780133871975** and ISBN-10: **0321839927**/ISBN-13: **9780321839923**.

For one or two semester biochemistry courses (science majors).

A highly visual, precise and fresh approach to guide today's mixed-science majors to a deeper understanding of biochemistry

Biochemistry: Concepts and Connections engages students in the rapidly evolving field of biochemistry, better preparing them for the challenges of 21st century science through quantitative reasoning skills and a rich, chemical perspective on biological processes.

This concise first edition teaches mixed-science-majors the chemical logic underlying the mechanisms, pathways, and processes in living cells through groundbreaking biochemical art and a clear narrative that illustrates biochemistry's relation to all other life sciences. Integration of biochemistry's experimental underpinnings alongside the presentation of modern techniques encourages students to appreciate and consider how their understanding of biochemistry can and will contribute to solving problems in medicine, agricultural sciences, environmental sciences, and forensics.

The text is fully integrated with MasteringChemistry to provide support for students before, during, and after class. Highlights include interactive animations and tutorials based on the textbook's biochemical art program and Foundation Figures to help students visualize complex processes, apply, and test conceptual understanding as well as quantitative reasoning.

Also available with MasteringChemistry®

MasteringChemistry from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content. Instructors ensure students arrive prepared by assigning interaction with relevant biochemical concepts before class, and encourage critical thinking, visualization, and retention with in-class resources such as Learning Catalytics™. Students can further master concepts after class by interacting with biochemistry animations, problem sets, and tutorial assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.

Mastering brings learning full circle by continuously adapting to each student and making learning more personal than ever—before, during, and after class.

From reader reviews:

Tammi Kendrick:

Here thing why this specific Biochemistry: Concepts and Connections are different and reputable to be yours. First of all studying a book is good nonetheless it depends in the content of the usb ports which is the content is as scrumptious as food or not. Biochemistry: Concepts and Connections giving you information deeper since different ways, you can find any guide out there but there is no e-book that similar with Biochemistry: Concepts and Connections. It gives you thrill examining journey, its open up your current eyes about the thing in which happened in the world which is might be can be happened around you. It is easy to bring everywhere like in park your car, café, or even in your method home by train. When you are having difficulties in bringing the paper book maybe the form of Biochemistry: Concepts and Connections in e-book can be your option.

Janet Roldan:

Now a day those who Living in the era everywhere everything reachable by connect with the internet and the resources inside can be true or not need people to be aware of each data they get. How many people to be smart in acquiring any information nowadays? Of course the answer then is reading a book. Examining a book can help persons out of this uncertainty Information specifically this Biochemistry: Concepts and Connections book as this book offers you rich facts and knowledge. Of course the data in this book hundred percent guarantees there is no doubt in it everbody knows.

Joseph Singleton:

The book Biochemistry: Concepts and Connections has a lot associated with on it. So when you check out this book you can get a lot of profit. The book was compiled by the very famous author. The author makes some research prior to write this book. This particular book very easy to read you can obtain the point easily after perusing this book.

Paul Lopez:

What is your hobby? Have you heard this question when you got college students? We believe that that concern was given by teacher with their students. Many kinds of hobby, Every individual has different hobby. And you know that little person similar to reading or as reading through become their hobby. You have to know that reading is very important and book as to be the issue. Book is important thing to add you knowledge, except your own teacher or lecturer. You get good news or update with regards to something by book. Many kinds of books that can you decide to try be your object. One of them is this Biochemistry: Concepts and Connections.
