Cosmic and Universal Laws - Subtitle Infinite Laws for a Happy and Prosperous Life Margo Kirtikar

This book is a compilation of 269 Universal Laws within whose orbit our lives unfold. Throughout the ages and ever since mankind has existed, infinite universal laws have always existed and they continue to exist, for those of us who care to listen, learn and understand. We can look at universal laws as keys that open the mysteries of life itself. The one who holds these keys is able to be in tune with the workings of life and becomes intuitive and inspired. To such a person revelations manifest and his or her language becomes music that inspires others.

To truly know who we are we need to understand our complete human identity, our origin, our direction, our purpose, intention and our duty as humans. Through self-knowledge we can create a state of health, in which our spiritual and physical resources are equally active, in balance, working in harmony towards a common goal. This book is meant to inspire you, to arouse your curiosity and to prompt your own inner personal dialogue. The laws contained in this book in no way exhaust the existing laws but this book is the most extensive collection of Universal Laws that exists to date.
