- This edition of our popular reader is entirely updated with timely articles that deal with broad issues in education and psychology. (For a research reader with emphasis on classroom issues, see *A Cross Section of Educational Research*.)
- This collection shows students the many inherent weaknesses of empirical methods as well as models of excellence. Unlike research readers that contain made-up articles, this one has both face validity and content validity. Your students will appreciate reading real articles with real results.
- The 34 research articles illustrate:
 - qualitative research
 - combined qualitative/quantitative research
 - content/documentary analysis
 - correlational research
 - test validity and reliability research
 - causal-comparative research
 - true experimental research
 - quasi-experimental research
 - pre-experimental research
 - program evaluation
 - meta-analysis
- The lines are numbered sequentially, making it easy to refer to specific parts of each article during classroom discussions.
- This single source of research articles is convenient for you and your students.
- Easy to coordinate with any research methods text, this reader is an ideal way to make research methods come alive! Field-tested for student interest and comprehension.
- All major methods of research are illustrated with real research articles drawn from a wide variety of journals. (See Table of Contents.)
- Your students will become familiar with a wide variety of writing and organizational styles that real researchers use. Despite their variety, all articles in this book are highly comprehensible.
- Factual Questions at the end of each article encourage students to read for mythological points they might otherwise overlook.
- Questions for Discussion encourage students to address broad issues of research design. An instructor's answer key will be shipped with your examination copy.
- The interesting research topics will make your students look forward to doing their research reading

homework.
