## **2016-2017 Basic and Clinical Science Course (BCSC), Section 12: Retina and Vitreous (Basic & Clinical Science Course (BCSC))** American Academy of Ophthalmology

Provides an overview of the structure and function of the retina and its relationship to the pigment epithelium, choroid and vitreous. Describes the major vitreoretinal disorders and appropriate diagnostic methods and treatment principles.

Includes updates on the management of age-related macular degeneration, diabetic macular edema, and venous occlusive disease chapter covering retinovascular disease associated with cardiovascular disease. An emphasis on imaging is demonstrated in this text with more than 175 images, and ten surgical videos to illustrate common vitreoretinal procedures. Both print and eBook users have access to the videos.

Separate chapters are devoted to age-related macular degeneration, diabetic retinopathy and retinopathy of prematurity, including the latest imaging techniques and choroidal detail. Selected therapeutic topics include laser therapy and vitreoretinal surgery.

Upon completion of Section 12, readers should be able to:

- \*Select appropriate methods of examination and ancillary studies for the diagnosis of vitreoretinal disorders
- \*Describe the principles of medical and surgical treatment of vitreoretinal disorders
- \*Incorporate data from major prospective clinical trials in the management of selected vitreoretinal disorders

Major revision: 2015-2016

Section chair: Colin A. McCannel, MD

Print: 422 pages

### **CME Information**

The American Academy of Ophthalmology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The American Academy of Ophthalmology designates this enduring material for a maximum of 10 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

The American Medical Association requires that all learners participating in activities involving enduring materials complete a formal assessment before claiming CME credit. To assess your achievement in this activity and ensure that a specified level of knowledge has been reached, a posttest for this section of the Basic and Clinical Science Course is provided. A minimum score of 80% must be obtained to pass the test and claim CME credit. Visit CME Central for more information.

### **About the BCSC**

The Academy's Basic and Clinical Science Course™ (BCSC®) is ophthalmology's definitive compilation

of scientific research and clinical experience. It is continually updated by a faculty of more than 80 expert ophthalmologists. Each of the 13 volumes includes fundamental clinical knowledge; numerous tables, photos and illustrations; self-assessment questions with answers; and opportunities for earning AMA PRA Category 1 Credit™.

Beginning with the 2013 2014 edition, the Academy and the European Board of Ophthalmology (EBO) have partnered to make the BCSC the standard text for all European ophthalmology training programs. The EBO now recommends the BCSC as the primary educational resource for European trainees and ophthalmologists studying for the annual EBO Diploma Exam.

**From reader reviews:**

**Ricardo Hamilton:**

What do you consider book? It is just for students since they're still students or the item for all people in the world, the particular best subject for that? Just you can be answered for that question above. Every person has various personality and hobby for every single other. Don't to be pressured someone or something that they don't wish do that. You must know how great in addition to important the book 2016-2017 Basic and Clinical Science Course (BCSC), Section 12: Retina and Vitreous (Basic & Clinical Science Course (BCSC)). All type of book can you see on many options. You can look for the internet solutions or other social media.

**Sharyl Nettles:**

Nowadays reading books are more than want or need but also be a life style. This reading practice give you lot of advantages. Associate programs you got of course the knowledge the actual information inside the book which improve your knowledge and information. The data you get based on what kind of guide you read, if you want drive more knowledge just go with schooling books but if you want sense happy read one with theme for entertaining such as comic or novel. The actual 2016-2017 Basic and Clinical Science Course (BCSC), Section 12: Retina and Vitreous (Basic & Clinical Science Course (BCSC)) is kind of guide which is giving the reader capricious experience.

**Kevin Miller:**

Information is provisions for individuals to get better life, information currently can get by anyone on everywhere. The information can be a knowledge or any news even a concern. What people must be consider any time those information which is from the former life are challenging be find than now is taking seriously which one is acceptable to believe or which one the actual resource are convinced. If you obtain the unstable resource then you understand it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take 2016-2017 Basic and Clinical Science Course (BCSC), Section 12: Retina and Vitreous (Basic & Clinical Science Course (BCSC)) as your daily resource information.

**Sandra Forester:**

Do you have something that that suits you such as book? The e-book lovers usually prefer to pick book like comic, quick story and the biggest an example may be novel. Now, why not striving 2016-2017 Basic and Clinical Science Course (BCSC), Section 12: Retina and Vitreous (Basic & Clinical Science Course (BCSC)) that give your entertainment preference will be satisfied simply by reading this book. Reading routine all over the world can be said as the opportunity for people to know world far better then how they react when it comes to the world.
