## **Introduction to Cataloging and Classification** Mildred Harlow Downing

Revised, updated, and almost completely rewritten, this sixth edition of a classic textbook teaches all aspects of cataloging and classification, stressing practical library applications as well as theory. Incorporated are changes from the 1988 revision of the *Anglo-American Cataloguing Rules, 2d ed.* (AACR2) and the 20th edition of the Dewey Decimal classification system. Expanded information on automation, nonprint media, and Library of Congress classification is provided. Appendices explain how computers process bibliographic information.
