Oil and Gas in Africa: A Legal and Commercial Analysis of the Upstream Industry

Oil and Gas in Africa: A Legal and Commercial Analysis of the Upstream Industry

As an oil and gas province, Africa is clearly a region of growing importance. This book discusses the opportunities and challenges. Chapters describe the production sharing contract (PSC) and economic terms governing regional exploration and production activity. The book also covers financing, M&A, valuation, local content, state participation, security and decommissioning issues in an African context. Additional chapters deal with OHADA – an attempt to harmonise business laws across 17 countries in West and Central Africa – and natural gas and LNG projects.
