Olinguito, de La A a la Z!/Olinguito, from A to Z! Lulu Delacre

With lyrical text in both Spanish and English, we travel to the magical world of a cloud forest in the Andes of Ecuador. We discover the bounty of plants, animals, and other organisms that live there as we help a zoologist look for the elusive olinguito, the first new mammal species identified in the Americas since 1978. Not your usual ABC book, the alphabet works as an organizing feature and provides children with a vehicle to encounter rich vocabulary as they learn about a unique environment. Thoroughly researched and exquisitely illustrated with colorful, realistic images, the book is a visual delight while it provides a wealth of information. Backmatter includes articles about cloud forests and the discovery of the olinguito in 2013, and an extensive glossary with the scientific names of the species pictured. This is truly a unique book to treasure on many levels.
