This text is part of a series of all-in-one field guides to the common plants and animals of specific regions. Over 300 species descriptions, and information on the geology, climate and habitats specific to each area, are contained in each guide. Tips on watching and identifying wildlife aim to make it easier for readers to identify the birds, animals, snakes and other reptiles, frogs, fishes, insects and plants on their doorstep, whether in the wild, or in the city or suburb. Each species account is illustrated with colour photographs, and habitat symbols link each species to its preferred habitat. This title, covering the Lowveld, describes the wildlife of the Kruger National Park, wildlife reserves, the escarpment foothills and surrounding natural areas.
