The Harvest: Taken (Volume 1) M.A. Church

In the year 2050, humanity finds out they are indeed not alone. Massive space ships appear without warning above the capital cities of all major nations. The planet Tah'Nar is dying. Chemical warfare has reduced the once-intersexed warrior race to sterility. They need fresh DNA in order to reproduce and have an idea for a harvesting program... and so they turn to Earth. Earth governments negotiate a lottery, and Dale Michael assumes he's safe since he's under the Harvest age limit. How wrong he is. He's illegally harvested and claimed by Tah'Narian starship captain Keyno Shou. From the moment Keyno sees Dale, he knows he must claim the spirited human male for his own. What he doesn't expect is a spitfire with a mind of his own—and a deadly disease that will require a risky procedure to cure.
