Computer Vision - ECCV 2004: 8th European Conference on Computer Vision, Prague, Czech Republic, May 11-14, 2004. Proceedings, Part I (Lecture Notes in Computer Science)

Welcome to the proceedings of the 8th European Conference on Computer Vision! Following a very successful ECCV 2002, the response to our call for papers was almost equally strong – 555 papers were submitted. We accepted 41 papers for oral and 149 papers for poster presentation. Several innovations were introduced into the review process. First, the number of program committee members was increased to reduce their review load. We managed to assign to program committee members no more than 12 papers. Second, we adopted a paper ranking system. Program committee members were asked to rank all the papers assigned to them, even those that were reviewed by additional reviewers. Third, we allowed authors to respond to the reviews consolidated in a discussion involving the area chair and the reviewers. Fourth, the reports, the reviews, and the responses were made available to the authors as well as to the program committee members. Our aim was to provide the authors with maximal feedback and to let the program committee members know how authors reacted to their reviews and how their reviews were or were not reflected in the final decision. Finally, we reduced the length of reviewed papers from 15 to 12 pages.

The preparation of ECCV 2004 went smoothly thanks to the efforts of the organizing committee, the area chairs, the program committee, and the reviewers. We are indebted to Anders Heyden, Mads Nielsen, and Henrik J. Nielsen for passing on ECCV traditions and to Dominique Asselineau from ENST/TSI who kindly provided his GestRFIA conference software. We thank Jan-Olof Eklundh and Andrew Zisserman for encouraging us to organize ECCV 2004 in Prague.

From reader reviews:

Jeremy Scott:

Book is usually written, printed, or highlighted for everything. You can realize everything you want by a reserve. Book has a different type. As we know that book is important factor to bring us around the world. Beside that you can your reading expertise was fluently. A reserve Computer Vision - ECCV 2004: 8th European Conference on Computer Vision, Prague, Czech Republic, May 11-14, 2004. Proceedings, Part I (Lecture Notes in Computer Science) will make you to possibly be smarter. You can feel much more confidence if you can know about every little thing. But some of you think this open or reading the book make you bored. It is not necessarily make you fun. Why they are often thought like that? Have you in search of best book or suited book with you?

Allen Goehring:

What do you think of book? It is just for students because they're still students or that for all people in the world, what the best subject for that? Only you can be answered for that query above. Every person has distinct personality and hobby per other. Don't to be forced someone or something that they don't wish do that. You must know how great and important the book Computer Vision - ECCV 2004: 8th European Conference on Computer Vision, Prague, Czech Republic, May 11-14, 2004. Proceedings, Part I (Lecture Notes in Computer Science). All type of book can you see on many sources. You can look for the internet methods or other social media.

Donald Chapin:

The e-book with title Computer Vision - ECCV 2004: 8th European Conference on Computer Vision, Prague, Czech Republic, May 11-14, 2004. Proceedings, Part I (Lecture Notes in Computer Science) has lot of information that you can study it. You can get a lot of benefit after read this book. That book exist new understanding the information that exist in this guide represented the condition of the world today. That is important to yo7u to be aware of how the improvement of the world. This kind of book will bring you with new era of the glowbal growth. You can read the e-book on your own smart phone, so you can read the idea anywhere you want.

Jennifer Meeks:

As we know that book is vital thing to add our expertise for everything. By a e-book we can know everything we wish. A book is a range of written, printed, illustrated or perhaps blank sheet. Every year was exactly added. This publication Computer Vision - ECCV 2004: 8th European Conference on Computer Vision, Prague, Czech Republic, May 11-14, 2004. Proceedings, Part I (Lecture Notes in Computer Science) was filled concerning science. Spend your free time to add your knowledge about your scientific research competence. Some people has various feel when they reading any book. If you know how big benefit from a

book, you can sense enjoy to read a book. In the modern era like now, many ways to get book that you just wanted.
