The Salmon in the Spring: The Ecology of Celtic Spirituality Jason Kirkey

Here at the end of the Cenozoic Era with the life systems withering away, a surprising creativity appears, a kind of mystical balancing act. The world's spiritual traditions are entering into deeply engaged conversations through which the riches of each are ignited in new ways. With *The Salmon in the Spring*, Jason Kirkey has boldly carved out his place in this exciting work with his original interpretations of the concepts and stories of ancient Ireland . . . Kirkey's vision speaks directly to our present ecological challenge. Rejecting those nature-denying forms of spirituality that have been used too easily to justify our domestication of the planet, *The Salmon in the Spring* announces its thrilling spiritual foundation: "Our wild nature is our soul." -Brian Swimme, California Institute of Integral Studies
