An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3)

Peet (P.S.J.) Schutte

I managed to prove and explain four cosmic keys that build the Universe namely: The Titius Bode Law; The Lagrangian Points, The Roche limit and The Coanda Effect. Everything in nature in the Universe applies these phenomena in how space forms. The Titius Bode Law: forms the solar planetary layout and annihilates Newtonian dogma that the solar system forms in any way by applying the mass of the planets. The Lagrangian Points: holds material in position to form the rings around planets. The Roche limit removes the idea that stars and planets can collide or crash into each other. This explains amongst so many other things how the Tunguska event took place. The Coanda Effect is a ratio that movement forms between space and material. It forms the Universe in as much as forming stars in spheres and forming galactica in circles. Should you never have heard of these laws applying as gravity forms then also read why there is so little said about these laws? With this said I managed to prove and explain four cosmic keys that build the Universe namely: The Titius Bode Law; The Lagrangian Points, The Roche limit and Coanda Effect Everything in nature in the Universe applies these phenomena in how space forms. The Titius Bode Law: forms the solar planetary layout and annihilates Newtonian dogma that the solar system forms in any way by applying the mass of the planets. The Lagrangian Points: holds material in position to form the rings around planets. The Roche limit removes the idea that stars and planets can collide or crash into each other. This explains amongst so many other things how the Tunguska event took place. The Coanda Effect is a ratio that movement forms between space and material. It forms the Universe in as much as forming stars in spheres and forming galactica in circles. Science is blamed for many different conspiracies but those all are vague and argumentative. We all know there is something wrong within what science is and what science says. Someone is somehow hiding something somewhere and no one puts a finger on the button. All these are there to protect the mother conspiracy from getting leaked. You are about to read the mother of all the conspiracies in science, which is why science applies mind control by processing thought control. I prove that there is a mother conspiracy in place. Every conspiracy ever linked to science is in place to protect this conspiracy from becoming known. The mother conspiracy is in place so that students are brainwashed by instigating mind control on students through enforcing accepting dogma. I prove what I accuse science of. I introduce a new cosmic vision with the Universe singularity that forms every known space.

From reader reviews:

Floyd Wyatt:

Book is to be different per grade. Book for children until eventually adult are different content. To be sure that book is very important for people. The book An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) seemed to be making you to know about other information and of course you can take more information. It doesn't matter what advantages for you. The guide An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) is not only giving you far more new information but also to get your friend when you experience bored. You can spend your spend time to read your e-book. Try to make relationship while using book An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3). You never sense lose out for everything in case you read some books.

Richard Martinez:

The publication untitled An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) is the book that recommended to you to see. You can see the quality of the e-book content that will be shown to a person. The language that writer use to explained their way of doing something is easily to understand. The writer was did a lot of exploration when write the book, so the information that they share for you is absolutely accurate. You also could get the e-book of An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) from the publisher to make you more enjoy free time.

Dorothy Cropper:

Beside this specific An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) in your phone, it may give you a way to get more close to the new knowledge or information. The information and the knowledge you may got here is fresh from oven so don't be worry if you feel like an old people live in narrow village. It is good thing to have An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) because this book offers for your requirements readable information. Do you oftentimes have book but you seldom get what it's all about. Oh come on, that will not happen if you have this inside your hand. The Enjoyable set up here cannot be questionable, including treasuring beautiful island. So do you still want to miss this? Find this book and also read it from today!

Donald Vermillion:

A number of people said that they feel uninterested when they reading a reserve. They are directly felt the item when they get a half areas of the book. You can choose the actual book An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) to make your personal reading is interesting. Your own personal skill of reading ability is developing when you like reading. Try to choose

very simple book to make you enjoy to read it and mingle the idea about book and looking at especially. It is to be first opinion for you to like to start a book and study it. Beside that the e-book An Open Letter to Selected Academics # 3: Indicating Singularity (Locating Singularity) (Volume 3) can to be your brand-new friend when you're sense alone and confuse with what must you're doing of this time.
