Fashion Pattern Cutting is a creative pattern cutting book that pushes the boundaries of experimentation on the mannequin stand. In this book, experienced fashion designer Zarida Zaman explains how to make garments bearing in mind the relationship between fabric, drape, weight and 3D forms. Taking architecture, origami and natural forms as her three key sources of inspiration, the author shows how to create varied and exciting contemporary styles using crisp folds, bold shapes and natural fabrics. Written in an accessible style with clear visuals and plenty of tips and tricks, the book gives readers the tools and confidence to experiment creatively.

Included in this book are hand-drawn illustrations of pattern pieces, complete with measurements, and suggestions for how to apply techniques across a range of garments. The patterns reveal the deceptively simple draping techniques used to create stylish, minimalist designs, and enable readers, whether beginners or experienced pattern cutters, to put together stunning and innovative designs themselves.
