Bring a fresh approach to the bargaining table

Tap the transformative potential of mediation and discover the full promise of the mediation process. In this insightful work, the authors present an alternative theoretical framework that affords a deeper understanding of conflict and mediation -- one based on respect for personal strength and compassion for others. Drawing on their own experience and a wide body of research, they offer mediation practitioners, administrators, policy makers, and researchers a new and useful perspective on how mediation is currently practiced, how it could be structured to accomplish more, and how to refine the process for future application.
