The directory has thousands of entries with, for each manufacturer or designer, the names of all the classes of aircraft produced (powered fixed wing, unpowered fixed wing, powered rotor rotor-craft and unpowered-rotor rotor-craft). Entries are cross-referenced and brief histories of important companies have been added to enable the researcher to chart mergers, closures, and name changes. Significant nicknames and code names are also detailed. This valuable and unique book presents a vast, official array of data in an accessible form and is an essential reference book for any aviation enthusiast.
