## **God, Actually: Why God Probably Exists, Why Jesus Was Probably Divine, and Why the 'Rational' Objections to Religion are Unconvincing** Roy Williams

In this wide-ranging, provocative defence of Christianity, former lawyer Roy Williams contends that belief should be based on logical deductions from known facts. Using a wealth of examples drawn from science, politics, history, sociology and the arts, he tackles the biggest questions by appealing to evidence and reason. Part careful and ecumenical apologia, part testament to Williams' personal journey towards faith, God, Actually will appeal to sceptics and practising Christians alike.
