Dysphagia is a swallowing problem that is common in elderly patients. Problem swallowing can lead to weight loss, dehydration, malnutrition, aspiration, pneumonia, and even death. The HHA plays a key role in helping patients with swallowing problems eat and drink safely.

LESSON OBJECTIVES

After completion of this program, the home health aide will be able to:

- Recognize signs and symptoms of swallowing problems
- List medical problems associated with swallowing
- List three ways to help patients swallow safely
- Describe comfort feeding

Contents of this lesson:

- A clearly written fact sheet
- A 10-question post-test to measure understanding of the subject matter
- An answer sheet with a place for the instructor's comments and signature
- An illustrative, homecare-specific case study
- Suggested supplemental learning activities
- An attendance log and certificate of completion
