Meet the Royals: the highly respected, prestigious, very well known and connected family throughout the state of Michigan. The businesses that they own are frequented often, their charitable donations and contributions are fawned over and their accolades and achievements are always front page on every blog and news outlet. But the cookie cutter Royals lead a double life with a bloody past. The family that outwardly appears to be the picture of modern day royalty are the largest and most notorious drug cartel in the Midwest. With each member contributing to the family business in one way or another, the Royal family has reigned supreme for decades. But the Royal clan's seat on the throne hasn't been and won't be a smooth ride. With snakes inside the family trying to ruin them from the inside out, love triangles that threaten to shake the very foundation of the family, heartbreak, deadly secrets and a new enemy moving in on their territory, the Royals have a lot to battle against in order to protect their throne and to continue to control the streets that they call home.
