## **Trend Lines and Fibonacci Charts: How to Read and Manage Potential Profit** Rich Finegan

This is the third book on foreign exchange (forex) after "Forex Trend Line Trading Strategy" and "Forex Secret Trading Model" books. It is recommended to start from those books for better understanding.

Fibonacci charts provide additional information on price movement both before and after the price breaks trend lines. Without understanding Fibonacci charts, it is difficult to understand the price turbulence within trend lines and also trend continuation confirmation. This information will give better knowledge to traders to read and manage potential profit. This book will explain on how and when to use Fibonacci Retracements, Fibonacci Fan, and Fibonacci Extensions charts and also which chart need to be set up first. You may see forex or other financial markets differently once you understand the concept. Clear, simple and rarely explained in financial literatures make this book unique and valuable to explore for better decision making. -
