## **Leap of Reason: Managing to Outcomes in an Era of Scarcity** Mario Morino

Leap of Reason is the product of decades of hard-won insights from philanthropist Mario Morino, McKinsey & Company, and top social-sector innovators. It is intended to spark the critically important conversations that every nonprofit board and leadership team should have in this new era of austerity. The authors make a convincing case that the nation's growing fiscal crisis will force all of us in the social sector to be clearer about our aspirations, more intentional in defining our approaches, more rigorous in gauging our progress, more willing to admit mistakes, more capable of quickly adapting and improving-all with an unrelenting focus on improving lives. "This monograph is a must-read for nonprofit leaders. It will help you stay singularly focused on your core mission and help you be effective at making a difference in people's lives." - Geoffrey Canada, Founder, Harlem Children's Zone
