Geometry skills are learned from an early age, and readers build upon those first geometry lessons with topics like describing objects using the names of shapes, identifying both two-dimensional and three-dimensional shapes, and composing shapes. Readers are able to explore these essential concepts independently through accessible text and colorful images of both new and familiar shapes. Readers discover how to use simple shapes to make larger shapes in a fun and accessible way. This volume adheres to standard K.G.B.6 of the Common Core State Standards for Mathematics.
