Rights of Animals and Man's Obligation to Treat Them With Humanity 1838 (Mellen Animal Rights Library) William H. Drummond, Rod Preece, Chien-Hui Li

William Drummond's *The Rights of Animals* is one of several early nineteenth century volumes dedicated to arousing a recognition of the importance of the well-being and protection of animals. Like a number of contemporary works, this book was written at the behest of the Society for the Prevention of Cruelty to Animals, to which the prefix 'Royal' was soon to be added. Of these volumes *The Rights of Animals* is the most learned and, along with that of the veterinarian William Youatt (volume 11 in this Series), the most significant in stating the animal cause as seen from the perspective of the pre-Darwinian nineteenth century. This 1838 book was authored by William Hamilton an Irish Unitarian Minister of Scottish extraction. By adding a contextual Introduction and copious explanatory Editorial Notes, Drs. Preece and Li have put this work into its historical and literary setting, thus rendering the work much more readily comprehensible to the scholar of the twenty-first century.
