## The Coming of the Guardians: An Interpretation of the Flying Saucers as Given from the Other Side of Life

Where do UFOs really come from? Layne holds an inter-dimensional, etheric-based theory. He terms those from the other realms as Etherians and the UFOs themselves sometimes appear as living creatures, referred to as aeroforms. Much of the information was corroborated by the scientific work of Trevor James Constable or came directly from intelligences channeled through Mark Probert, the greatest psychic medium of his time. Do not discount channeled material until you read this book. Layne was scientific in his approach until hearing Probert's amazing messages, which independently verifies his research. Covers propulsion systems, vibrational frequencies, and the sudden appearance of these craft more accurately than most scientific books on this subject have ever done.
