## **Protect Nature (Environment Action)** Kay Barnham

Protecting natural habitats, animals, and plants from being harmed or destroyed is essential to our planet's survival. This new book explores how the everyday actions of humans can harm nature, from the pollution created by the fuel we use and the garbage we throw away, to the habitats that are destroyed to make way for roads and cities. Ideas for protecting nature at home, at school, and on vacation encourage children to take an active part in preserving and caring for our environment.
