The Ethics Rupture: Exploring Alternatives to Formal Research-Ethics Review

For decades now, researchers in the social sciences and humanities have been expressing a deep dissatisfaction with the process of research-ethics review in academia. Continuing the ongoing critique of ethics review begun in Will C. van den Hoonaard's *Walking the Tightrope* and *The Seduction of Ethics*, *The Ethics Rupture* offers both an account of the system's failings and a series of proposals on how to ensure that social research is ethical, rather than merely compliant with institutional requirements.

Containing twenty-five essays written by leading experts from around the world in various disciplines, *The Ethics Rupture* is a landmark study of the problems caused by our current research-ethics system and the ways in which scholars are seeking solutions.
