After you've created your website and ensured that the search engines can read the pages, somehow you have to get the search systems — the engines and directories — to include your site. That's hard if you don't know what you're doing.

This book shows you how to take advantage of the power of search engine optimization (also known as SEO) to optimize your websites and web pages to rank well in the search engines. In these pages, I demystify the world of search engines and discuss what you need to do to give your site the best possible chance of high search engine rankings.
